

Madam Chair Bangerter and Members of the  
Committee:

My name is Pauline Dean. I reside in Missoula and  
I am in support of SB147.

I believe, that  
Ranchers and farmers should be allowed to use  
their private property as they wish, without so  
many crippling and rigid regulations in order to  
be successful in their endeavors. Government  
should not infringe on their rights, and do  
remember that we are guaranteed protection of our  
private property rights by the Constitution of the  
U.S. And that is what defines us here.!

Currently there are outside entities, without  
agricultural experience or proper knowledge that  
are influencing the unwise & unjust use of  
agriculture land in Missoula County.  
It is vitally important to protect our  
agricultural soil which will only increase in  
importance to the people of our state as the years  
go by.

We cannot and must not allow the businessman's  
greed to rob his fellow man of his mandate, from  
God, to be of good stewardship of his land, that  
it may continue to provide for posterity.

Please vote for SB147

Thank you, for the privilege of testifying today.
